Key Project: Centenary Memorial Garden

- Reclaim the derelict land at the rear of the Hall, and create a garden to mark the ending of the Great War. The aim is to make the garden look attractive to look at from inside the Hall & create an easily accessible space for occasional use whilst ensuring it is low maintenance.
- Fundraising has been very successful, and significant work has been carried out (which you can see for yourselves!)
- There will be an opening ceremony later this year; keep an eye out for the date!
